

# Project Profile

## University of Manchester – Tower Roof

Kemperol 2K-PUR Polyester Reinforced Coating System

### The Problem

The University of Manchester was experiencing water ingress issues over the residential block at Owens Park. A large number of patch repairs had been undertaken with little effect. The standing seam copper roof was at the end of its serviceable life.

### The Solution

Weatherproofing Advisors surveyed the site and specified the Kemperol 2K-PUR polyester reinforced coating system to encapsulate the problem roof area.

### The Benefits

Kemperol 2k-PUR is currently the only solvent free and odourless high performance coating system available to UK specifiers and carries a British Board of Agreement Certificate.

### System Features:

- Solvent Free and Odourless
- Fully Reinforced Application
- Seamless and Tear Resistant
- Elastomeric and Dynamic Crack Bridging
- Site Friendly
- Wet on Wet Application
- Factory Mutual – FM Approved

### Service Centres Nationwide:

#### Blantyre

Advisor House  
West Avenue  
Blantyre Industrial Estate  
Blantyre  
G72 0UZ

Tel: 01698 826928  
Fax: 01698 824616

#### Newcastle

Advisor House  
Archer Street  
Rosehill, Wallsend  
Newcastle  
NE28 7DJ

Tel: 0191 263 3553  
Fax: 0191 263 2553
